

An introduction to psychosexual therapy

Counselling Matters is proud to host a one day workshop providing an introduction to psychosexual therapy. The workshop will be presented by Muriel O'Driscoll. Muriel is a counsellor, coach, psychosexual therapist, educator and author of many years experience.

If you feel as though you are out of your depth when clients mention sex, come to this day for some down to earth de-mystifying of the subject. We will look at how we learn to be sexual beings, the common sexual problems that clients bring, some techniques to use and most importantly when and where to refer. A certificate of attendance will be issued.
